Gift Cards from Asda

Welcome to the world of flexible, secure and simple gifting

Asda gift cards offer a parallel solution to vouchers – but with many advantages. They will revolutionise your reward, benefit and incentive schemes.

Asda gift cards work just like vouchers. However, they have the advantage of additional security, with a pause protect function, are entirely re-usable and can be remotely reloaded via the internet – a great way to run an on-going scheme with minimum input required from you.

Pause protect means that the card is only activated when it has safely reached its destination. Until we know that the card is in the right hands it

will have no monetary value, and if it goes missing en route we can cancel it straight away.

Remote reload allows you to top-up all cards remotely so you can reward your staff again and again.

Asda gift cards are available in a variety of designs to suit any occasion and can be credited with any amount from £1 to £1000.

Manage your own top-ups
If you run a benefit, reward or incentive scheme, ask us about the **Gift Card Management System** that puts you in control of activating, loading and topping-up all the cards in your scheme via the internet.

Asda gift cards provide a secure, flexible and smart solution because:

- Re-usable
- Remote reload
- Reduced postage costs
- Added security
- Redeemable at any Asda store throughout the UK
- Redeemable against over 30,000 products in-store
- Unloaded cards can be stored on-site without the need for additional security
- Discounts available for bulk purchases
